WHY DWS

Innovation in action.

People
Much of our success is down to the skills and experience of our people.

Many of the team are former JD Edwards employees and have spent significant time working in development.

Expertise
Since 1998, we have been focussed exclusively on JD Edwards EnterpriseOne.

We're an award-winning Oracle Gold Partner & have built an enviable reputation as being expert in everything that we do.

Innovation
Throughout our history we have been dedicated to innovation and development.

Our Intellectual Property has been developed over many years. It is reflected in some of our solutions and the products that we make available to customers as a service.

Global
We operate internationally with staff in Europe, North America, South Africa and Australasia.

We support clients with their development, implementation, upgrade and code-current projects wherever they are.
